

virus 2

Publicado por Draxler Waldi - 10 Oct 2011 11:06

the name of the virus is TR/Gendal.5569040 at the F1rFactor Total 2011SP2.exe and TR/Gendal.5569278.1 at the rFactorTotal2011SP1.exe. i found the information at the following site:

f1total.mforos.com/1911297/9929176-mod-f...ctor-total-2011-sp1/

it is a spain site, so maybe anyone of u can help me

thx waldi.

This says the warning of antivirus may be caused for the exe file are a bat compressed, and any bat may be contain the command format c:

They says no problem with warning and the last post is thankyou.
