

sercer down?

Publicado por Markus Weber - 17 Jun 2012 20:44

Hi guys, I am trying to get on the server, but I cannot find one- is everything working ok?

in theory is always open but sometimes can not find it by searching in userdata / your nick / multiplayer.ini is a line

Concurrent Server Updates = "400";

switch 400 by 1000

so even if you do not see this might not be anything the server and avatares
