

Hi RealSim!

Hello guys!

It's quite some time now that I'm observing your activities here and there on the server lists and did some practice at times with some of you.

Added to the fact some names here resonate quite well in my memory with races I did in the past and such that I think RS is a comfortable place to race with nice people, into a spanish-spoken league!

Well I'm French, but I live in Morocco, Casablanca.

It's quite a time I do simracing with friends, because I hate offline practice.

I'm a member of the SimJunkies.org community and League Organizer myself, specialized into endurance races with Historic Cars and other mods. You probably hears about our 12H races or Le Mans Classic we did last 3 years.

Last race was a Targa Florio Hillclimb format race with WSC70 and the next race I organize will be 1000km at Zolder with DRM.

I hope you'll do some more rF1 races with HistoriX I could join.

Targa Florio yesterday was serious fun, before I obviously crashed.

I thank you again for having me yesterday, we'll see what we can do in a near future!

"Suerte"
